

POLARIZED MEDIA AIR CLEANER

- Dynamic Air Cleaners are high-efficiency whole-house electronic air cleaners with an equivalency rating of MERV 13.
- High-performance contaminant removal, low pressure drop, and a long maintenance cycle.
- Removes difficult odors and provide an efficiency of 97% for particles down to .3 microns in size.
- Fits directly into existing filter racks or filter grilles and are powered using wiring connected to the central HVAC system.
- Simple to install in the existing filter tracks and does not require any ductwork modifications.
- Lowers pressure loss, saving fan energy
